

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	30 July 2026
Team ID	Panchumarthi Durga Kosali
Project Name	Metro Ticket Generating System in ServiceNow
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Authentication	Login using ServiceNow credentials, User validation
FR-2	Metro Ticket Booking	Select Source Station, Destination Station, Journey Type, Number of Tickets
FR-3	Fare Calculation	Automatically calculate fare based on selected stations, Validate user input
FR-4	QR Code Generation	Generate unique QR ticket after successful booking, Display QR code to user
FR-5	Ticket Management	Create Request (RITM), Store booking details in ServiceNow database
FR-6	Admin Management	Admin can view bookings, manage requests and monitor ticket history

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple and user-friendly Service Portal interface for quick ticket booking
NFR-2	Security	Role-based access control, ACLs, HTTPS communication and secure data storage
NFR-3	Reliability	System should generate QR tickets accurately without failures
NFR-4	Performance	Ticket booking and QR generation should complete within a few seconds
NFR-5	Availability	Application should be available 24×7 using the ServiceNow Cloud Platform
NFR-6	Scalability	System should support multiple users and increasing booking requests without performance issues
