Project Name	Metro Ticket Generating system in serviceNow
Maximum Marks	2 Marks

Customer Problem Statement Template:

Metro passengers experience delays, inconvenience, and confusion while purchasing tickets due to long queues, manual ticketing process, and limited digital ticketing options. There is a need for a fast, secure and user-friendly metro ticket generation system that enables passengers to book tickets instantly, reduces waiting time, and improve the over all travel experience.

Metro Ticket generation system that enables passengers to quickly select their source and destination stations is the main objective of the project. it even includes for the reduce the queues at ticket counters, generate the ticket quickly and accurately. provide secure digital payment options, improve the passenger convenience and satisfaction.

EXAMPLE :

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A daily metro commuter	Purchase a metro ticket quickly before boarding the train	I have to wait in long queues at the ticket counter	Manual ticketing and peak-hour crowd cause delays	Frustrated, stressed and worried about missing the train
PS-2	A first-time metro traveler	Generate the correct metro ticket easily	I am unsure about the fare, destination selection and ticket process	The ticketing system provides limited guidance for new users	Confused, anxious and less confident
